NHS 111 Service Tel: 111

NHS 111 is a service that has been introduced to make it easier for you to access local NHS healthcare services in England. You can call **111** when you need medical help fast but it is not a 999 emergency. **NHS 111** is available 24 hours a day, 365 days a year. Calls are free from landlines and mobile phones.

When to use it:

You should use the **NHS 111** service if you urgently need medical help or advice but it's not a life-threatening situation.

Call 111 if:

- You need medical help fast but it is not a 999 emergency
- You think you need to go to A&E or need another NHS urgent care service
- You do not know who to call or you do not have a GP to call
- You need health information or reassurance about what to do next

For less urgent health needs, contact your GP or local pharmacist in the usual way. If a health professional has given you a specific phone number to call when you are concerned about your condition, continue to use that number

Friends & Family Test

The Friends and Family Test is a new contractual requirement from December 2014, for practices to offer all patients the opportunity to complete the test and the results to be published. The Friends and Family Test is the opportunity for patients to provide feedback on the care and treatment they have received and to help improve services. You can complete the questionnaire by following the link on our website homepage. You can also be sent a text message if you have given us your most up-to-date mobile telephone number, or you can simply fill in the questionnaire next time you visit the surgery.

Appointments

Appointments can be made by ringing **01244 325721**, or by calling at the Practice between 8.00am and 6.30pm. We have appointments released on the day and we also have 2 weekly pre-bookable appointments for GPs. Nurse appointments are pre-bookable up to 4 weeks in advance. We also have telephone appointments pre-bookable up to 2 weeks in advance for GPs. Due to the nature of general practice, sometimes surgeries may run late. Please be patient, as you may need more time on occasions too. If you have been waiting more than 30 minutes please tell reception and they will do their best to offer you an alternative.

Home Visits

If you are too ill to attend surgery then please telephone **01244 325721 before 10-30am**. State clearly the name and address of the patient and describe the symptoms. This helps the doctors to decide the urgency of the calls and plan their day.

Patient Online Access

To do this you will need to sign up to our **ONLINE ACCESS** facility via our website www.fountainsmedicalpractice.co.uk

Access to Medical Records

Patients have the right to access their medical records; if you wish to view your medical records please put the request in writing with photo ID and proof of address with the completed application form. There is a fee of £10 for access to records and an additional fee of 35p per page if written records are to be photocopied. **Please note 21 days prior notice is required.**

Repeat Prescriptions

If you regularly need medication, we can generate a 'repeat request slip' to request the items needed. This slip must accompany each request to ensure that the correct medication is prescribed; therefore telephone requests cannot be accepted. If the repeat slip is lost or mislaid please submit a written request for the items required. If you enclose a stamped, addressed envelope, your prescription will be returned to you. Otherwise the request can be dropped in at the surgery or faxed to 01244 313836. Please note it takes 48 hours (2 full working days) to prepare a prescription, excluding bank holidays and weekends. You can also order repeat prescriptions online via 'Patient Access'. Please visit our website www.fountainsmedicalpractice.co.uk for more information to register for this service or ask at reception.

Medication Reviews

In order to safeguard your wellbeing, it is necessary for the doctors to review your medication with you regularly. It may be that if you are coming to see your GP on another matter they will perform the review then. Otherwise they may want to talk to you on the telephone or face to face. A reminder will be attached to your prescription when a review is due. If you do not attend for a regular review it may delay the issuing of your repeat prescriptions.

Results of Investigations

Please telephone after 2pm for the results of tests, x-rays etc. To protect the patient's confidentiality results will only be given by telephone to the actual patient concerned. Please check that your results are back before attending for any follow up appointment.

You will be asked to complete this and a patient questionnaire. **You will need to bring along photographic ID and confirmation of your address to register.** If you wish, an appointment can be made for a new patient health check, which will be carried out by one of our nurses.
